COVERT LISTEN EARPIECE FOR 2 PIN RITRON PATRIOT RADIO (2.5MM JACK)

DESCRIPTION

This listen only covert earpiece for 2 pin Ritron Patriot radio has excellent voice quality, is small and more concealed than any other earpiece and enables you to use a radio without attracting attention.

The clear acoustic tube is hidden behind the ear and cables routed under clothing. It is ideal for noisy and quiet environments as it helps block out ambient noise and incoming radio traffic is private to the wearer and impossible to hear by someone stood nearby.

This earpiece is designed to work with any Ritron Patriot radio that has a standard 2.5mm jack socket. Most two pin and single pin Ritron Patriot radios have this socket. It will also work with any mobile phones with 2.5mm jack socket, including Iphone, blackberry etc, MP3 and MP4 players, laptops, computers, DAB radios and other portable audio devices.
